16: 30-17:00

Tour of PHI5000 VersaProbe

PHI5000 VersaProbe
(アルバック・ファイ)

This seminar will be held both for beginners and also for experienced users to supply fundamental knowledge on XPS and such as to improve their experimental skills.

The attendees can experience almost all functions of VersaProbe by remote-controlling it for themselves in one day.

International staffs and students who wish to attend the seminar can contact us by sending an e-mail to the following address.
